

Wools of New Zealand Shareholder Communication No. 19
3 December 2013

Additional Requirements for New Season Lamb's Wool

Our just released 2014 supply contract calls for the first deliveries to Camira Fabrics in March 2014. However, Camira has advised us that sales of their Blazer fabric are so far ahead of budget that they risk running short of wool. Accordingly they have requested supply of an additional two containers (40 tonnes) as soon as possible, hopefully scoured and shipped before Christmas, to arrive in Europe by the end of January.

We are very keen to meet this extra volume commitment, so if you have already shorn your lambs, or are about to, we would like to hear from you urgently and to include your wool in these two early shipments.

The terms for this extra early volume will be the same as the main contract (\$6.10/kg clean) and growers should find the tight VM spec easier to meet before many plants go to seed.

Growers who wish to supply into this contract but are not members of the Wools of New Zealand Integrity Program need to contact Wools of New Zealand to arrange accreditation. Phone 0800 OURWOOL (0800 687 9665) or email info.nz@woolsnz.com or visit www.ourwool.co.nz/integrity-program-2/ for details.

Details of the Camira contract have been mailed to all shareholders and 'supporters' so will be arriving in your mail box shortly. Full details are available on line at www.ourwool.co.nz/sales-options/lambs-wool-contract/
